BOSTON/SCOTT JOAN*

**Subject:** Clay Creek Road (SR 3011) over Trib East Br. White Clay Creek, Chester County

Mr. Eastburn:

The Pennsylvania Department of Transportation plans to make improvements to a structure in your township next year and as part of our early coordination efforts I would like to inform you of this upcoming construction activity. Due to its deteriorated status, a full replacement is proposed for the Clay Creek Road (SR 3011) structure over Tributary East Br. White Clay Creek; see the attached location map and photos. Construction is anticipated to begin in the spring of 2012 and last approximately four weeks.

The bridge carries Clay Creek Road (SR 3011) Over Trib E branch White Clay Creek in Franklin Township, Chester County. The bridge is 15 feet long and has a deck area of 210 square feet. A full replacement for the Clay Creek Road. The scope of work for this project includes the replacement of existing structure. All work will take place within existing PennDOT Right-of-Way and roadway approach work will be limited to the milling and resurfacing of pavement as needed to match the grade of the new structure.

This advanced notification of the impending bridge construction is intended to give you and your township ample time to communicate this information to your local emergency service providers, the school district, municipal services, authorities and recreation, and all affected local residents. The contractor will be required to coordinate with these entities prior to implementing the temporary traffic control over the bridge; however, that timeframe will be far more condensed.

If you or any citizens of Franklin Township have any questions or concerns regarding this project or would like to schedule a meeting to discuss the project in more detail, please contact Mr. Narayana Velaga, PE at 610-205-6873 or c-nvelaga@state.pa.us. I hope this advanced notification helps minimize any inconvenience during the proposed improvements.

Sincerely,

  
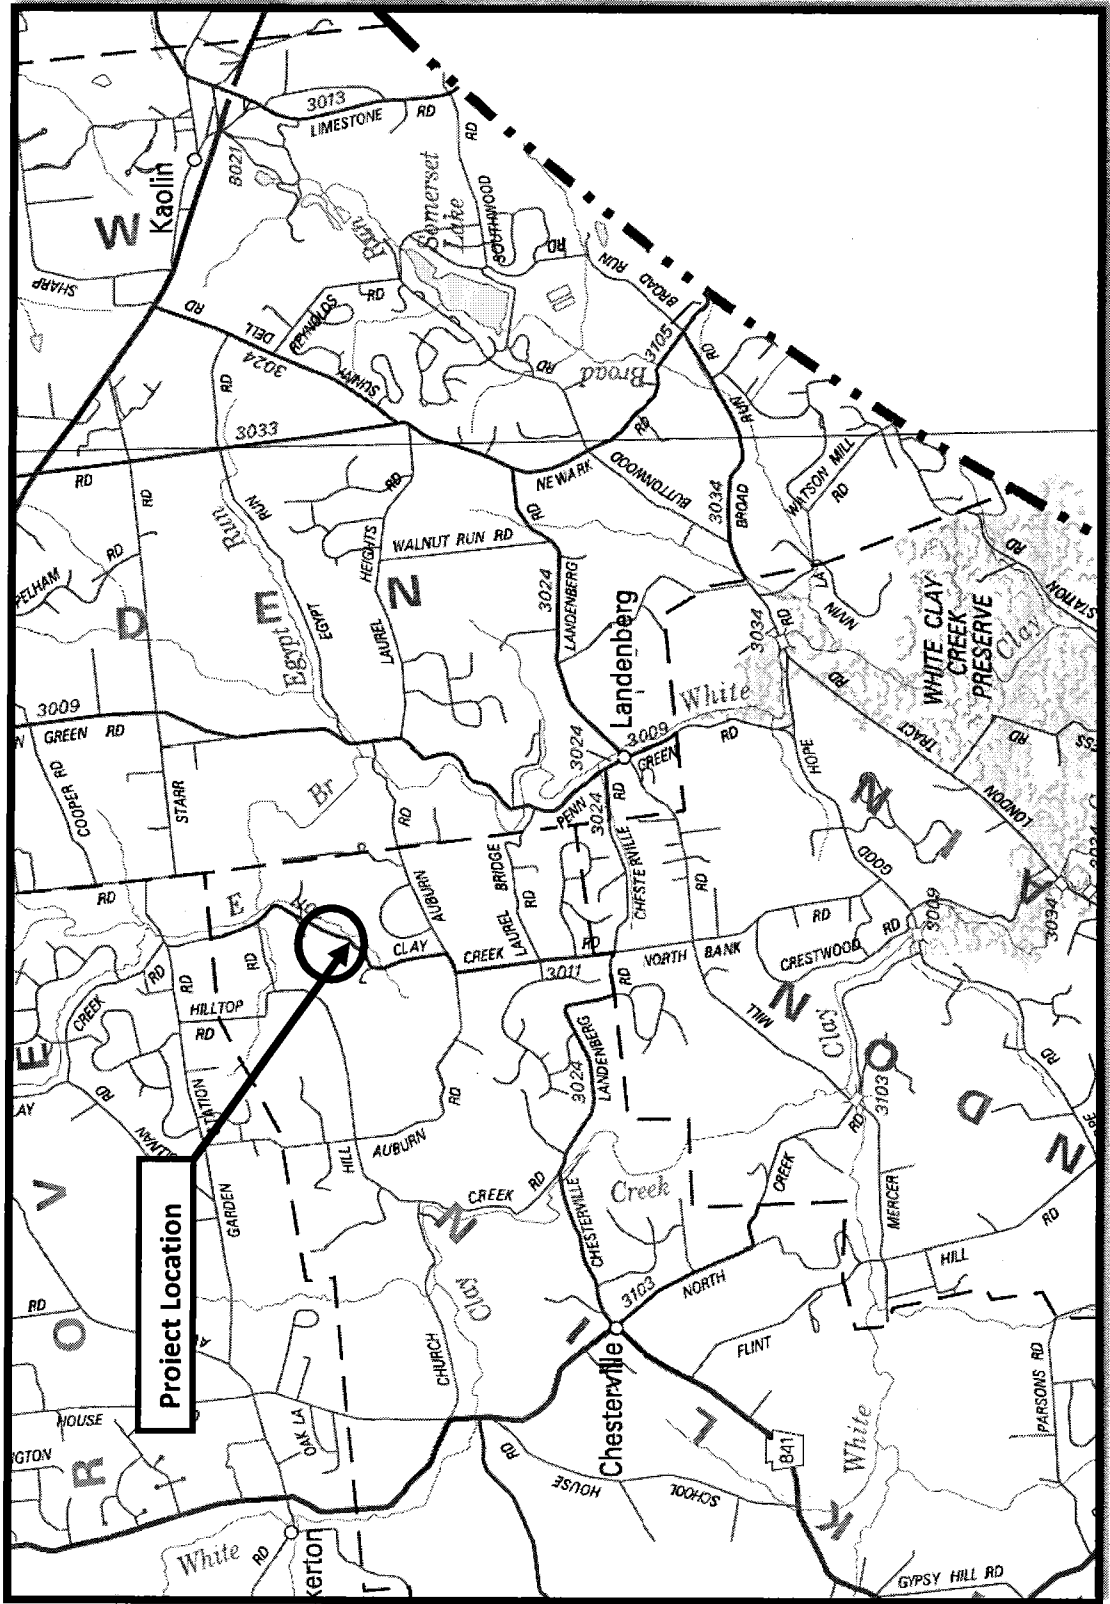

Lester C. Toaso  
District Executive 6-0
