Trails / Open Space

We agreed to hold Committee meetings at the same time and place as 2008's.

We discussed a visit to Wissahickon Park in Philadelphia to discuss their (The Friends of Wissahickon) experience with trail erosion, trail building, inter-user group problems and forming a Friends of Franklin Trails group.

We discussed the 2009 grant timing for State and County grant applications.

The Trail Plan draft was sent to DCNR. They have made comments and revisions consistent with those comments are being incorporated into the Study report. The final report should issue in December.

We also discussed an upcoming multi-municipal study to recommend a trail route in the New Garden, Franklin, London Grove border intersection.

DCNR are about to issue their grant awards. We have 2 in the running this round.
