

# **Notice To Residents**

## **Schedule Update**

**Subject: 2023 Franklin Township Road Program**

**Ways Run and Johnson Lane**

**Franklin Township has contracted with Long's Asphalt to complete the milling and paving for the Township's Road Program. The work on the roads were delayed one day due to inclement weather. The Surface Milling of the roadway will be completed today, 6/26/23. The leveling course to super-elevate a section of Ways Run Road between 7 Ways Run Road and 11 Ways Run Road will take place on Tuesday 6/27/23 late morning or early afternoon. During this process there will be one lane of traffic and residents can expect some delays in this area. The final surface course will be installed on Wednesday, 6/28/23. The Township has requested the Roads to be paved in one pass. Our paver can pave roads up to 22' wide in one pass, most Townships prefer 1 pass paving where applicable because it eliminates the center seam on the road (center seams tend to open up over time causing the road to deteriorate quicker) and provides a better finish product. Long's Asphalt will start paving in the Cul-de-sac at 7:00 am on 6/28/23. Once we exit the cull-de-sac vehicles will not be able to get around the paving operation. During the paving process the residents will not be able to access their driveways or be able to drive on the roads. Residents should plan on leaving their residence before the paving process starts if they must go out, or plan on staying home for the day. Once more, the paving will take place on 6/28/23. Hours of operation are 7:00 am to 5:00 pm. There will be no parking on the roads during working hours. Also, the work schedule could be affected by inclement weather so the schedule could fluctuate a day or two. We appreciate your understanding and patience as we complete the road improvements.**
